

Clarus 500 Retinal Imaging Consent

HEALTHY EYE

DISEASED EYE

As part of a comprehensive eye exam, it is recommended that **ALL** patients have the internal health of their eyes thoroughly evaluated every year. This is performed with either a **dilated** retinal exam or the **Clarus 500 retinal imaging**.

Conditions such as **macular degeneration, tumors, glaucoma, retinal holes, retinal detachments, diabetic retinopathy, and systemic diseases such as diabetes, high cholesterol, and high blood pressure** (all of which can lead to loss of vision/blindness) can be detected by the Clarus 500 retinal image.

Benefits of Clarus 500 retinal imaging:

- Provides a **digital, three-dimensional, high resolution** eye wellness scan
- Gives in depth view of the retinal layers (where disease can start)
- Allows your doctor to review your retinal image with you
- Provides an annual, permanent record for your medical file
- **It is fast, easy, and comfortable**
- **Will NOT** require dilating drops which result in blurred vision and sensitivity to light for 3-6 hours

PLEASE NOTE: THERE IS AN ADDITIONAL CHARGE ABOVE THE COMPREHENSIVE EXAM OF \$39 FOR THE BASIC CLARUS 500 RETINAL IMAGES WHICH ARE NOT USUALLY COVERED BY INSURANCE. (IN THE CASE OF A MEDICAL DIAGNOSIS, ADDITIONAL IMAGES WILL BE TAKEN, AND CAN BE BILLED TO INSURANCE.)

Please check one of the options below:

- ☐ I have read and understand the above, and **agree** to the **Clarus 500 retinal imaging**
- ☐ I have read and understand the above, and **wish to discuss the Clarus 500 retinal imaging further**
